State Clearinghouse Number: 2017012008
Project Title: Teaching and Learning Complex Project
Project Location: University of California – Davis Campus

Counties: Yolo and Solano Counties

Project Description: The proposed Teaching and Learning Complex Project would demolish several on-site structures to accommodate a new building consisting of approx. 100,000 gross square feet (GSF) for classroom-related space and faculty and administrative office space. The building height would range from one to four stories. The proposed project is consistent with the redevelopment anticipated in the 2018 LRDP.

This is to advise that the University of California Lead Agency has approved the above-described project on November 15, 2018 and has made the following determinations:

1. An Environmental Impact Report was prepared for the *UC Davis 2018 Long Range Development Plan*, of which the proposed Teaching and Learning Complex project is a part.
2. The environmental issues pertaining to the proposed Teaching and Learning Complex Project have been evaluated in the *UC Davis 2018 Long Range Development Plan EIR*, and no significant new information, no changes in the project, and no changes in circumstances have occurred, would require further analysis.
3. The EIR found that the *UC Davis 2018 Long Range Development Plan*, will have a significant effect on the environment.
4. Mitigation Measures were made a condition of approval of the *UC Davis 2018 Long Range Development Plan* and a Mitigation Monitoring and Reporting Program (MMRP) has been prepared; no new project-specific mitigation measures are required.
5. In connection with certification of the EIR, Findings and a Statement of Overriding Considerations were made pursuant to the provisions of the California Environmental Quality Act, and the previously adopted Statement of Overriding Considerations in connection with approval of the *UC Davis 2018 Long Range Development Plan* were reaffirmed for this project.

This is to certify that the Final EIR with comments and responses and record of project approval is available to the general public at: UC Davis Office of Environmental Stewardship and Sustainability, 436 Mrak Hall, University of California, Davis, CA 95616, Attn: Matt Dulcich, (530) 752-9597.
