Project Title: Veterinary Medical Center Vision – All Species Imaging Center

Project Location: University of California, Davis

County: Yolo

Project Description: UC Davis proposes the VMC All Species Imaging Center (ASIC) project as part of the implementation of the Veterinary Medical Center (VMC) Vision Plan to develop approximately 9,720 gross square feet of additional space to the south side of the Veterinary Teaching Hospital (VMTH) and provide 8,210 gross square feet of renovated space within the existing hospital. This project provides space for new and existing advanced diagnostic imaging equipment. To support and construct the ASIC, several utilities will be relocated including a new transformer, domestic water connection, fire hydrant and new chilled water connections. In addition, the project will renovate existing 3,000 SF in B Barn to provide interim facilities to replace functions that will not be accessible during the construction of the ASIC.

This Notice of Determination is to advise that the University of California Lead Agency has approved the above-described project on *October 20, 2020* and has made the following determinations:

1. The project would have no impact, or a less than significant impact with the incorporation of all relevant Mitigation Measures and continued adherence to adopted Practices and Procedures identified in the UC Davis 2003 Long Range Development Plan (LRDP) Final EIR.
2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. The implementation of applicable 2003 LRDP Final EIR and the 2018 LRDP Final EIR mitigation measures will be monitored and reported pursuant to the 2003 LRDP Final EIR and the 2018 Final EIR’s MMRP.
5. The previous statement of overriding considerations in the 2003 LRDP Final EIR were reaffirmed for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final Initial Study/Mitigated Negative Declaration with comments and responses and record of project approval is available to the general public at:
